More Great Premium Services

Compton Communications has been serving customers in Port Perry, Uxbridge and surrounding areas since 1972. Compton now offers digital TV, phone and Internet services for residential and commercial customers, with superior reliability and pricing. Over the years Compton became the first company in Canada to launch an HD-capable DVR and the smallest company in North America to launch Video on Demand services. Compton was recently described by a customer as a company that “not only knows how to recite the good service mantra, but actually knows how to deliver on it.”

Certain programming restrictions apply. HD channels require purchase or rental of an HD-capable digital box.
